

You can change a life— **one relationship at a time.**

For over two decades, Kids Hope USA has provided a reliable, caring, one-on-one relationship that fills a void in a student's life.

At-risk students live at-risk lives, often times with no boundaries or ones that make no sense at all. They long for direction, structure, and other life basics.

The reality is, at-risk kids have one thing in common. They grow up. And if no one is helping them navigate or change their life trajectory, then what?

Think for a moment, the reality is, at-risk students have little or no ability to choose life for themselves. Rather they live with the decisions others have made for them.

Isn't it possible, then, that together we have been given the unbelievable privilege to make choices to choose life and build real relationship with the students we reach!

Now you can participate through being a Mentor, or a Prayer Partner, and/or (NEW) a Scholarship Provider—all important ways to reach, influence, and make a difference in the lives of children in your community!
